**Educational Materials for State’s Attorney’s Offices
Regarding New Law on Medical Forensic Services for Sexual Assault Survivors**

Prepared by the Sexual Assault Medical Forensic Services Implementation Task Force

Public Act 100-0775 expands the Sexual Assault Survivors Emergency Treatment Act (SASETA) to ensure that all survivors of sexual assault are treated in a timely manner by health care professionals who are specially trained to conduct medical forensic examinations of sexual assault survivors. The Act is the product of a yearlong collaboration among the Department of Public Health, the Office of the Attorney General, child abuse pediatricians, sexual assault nurse examiners, and other medical providers, rape crisis advocates, children’s advocacy centers, hospitals, state’s attorney’s offices, and state agencies.

Public Act 100-0775 established the Sexual Assault Medical Forensic Services Implementation Task Force (Implementation Task Force) and set forth numerous goals to accomplish before December 31, 2023. One of the goals is “to develop and distribute educational information regarding the implementation of this Act to hospitals, health care providers, rape crisis centers, children’s advocacy centers, [and] State’s Attorney’s offices[.]” [410 ILCS 70/9.5(c)(5)]

This document contains the educational information for children’s advocacy centers prepared by the Implementation Task Force to satisfy this statutory mandate. Educational information for others may be found on the website of the Office of the Attorney General at <https://illinoisattorneygeneral.gov/Safer-Communities/Responding-to-Sexual-Assault/SANE/>.

Please note this document is not a complete summary of Public Act 100-0775. The full text of the new law can be found at <http://www.ilga.gov/legislation/publicacts/100/100-0775.htm>

The full text of SASETA can be found at <http://www.ilga.gov/legislation/ilcs/ilcs3.asp?ActID=1531&ChapterID=35&Print=True>.

Scope of the New Law

The amendments to SASETA apply to all sexual assault survivors (1) who present to with a complaint of sexual assault that occurred within the last 7 days or (2) who have disclosed past sexual assault by a specific individual and were in the care of that individual within the last 7 days. This is considered an acute disclosure. Treatment provided within 7 days is commonly referred to as acute medical forensic services. Treatment provided after 7 days is commonly referred to a non-acute medical services.

When a sexual assault survivor presents for acute medical forensic services, the sexual assault survivor must be offered evidence collection using the Illinois State Police Sexual Assault Evidence Collection Kit. The provider of medical forensic services must give the survivor appropriate oral and written information created by the Office of the Attorney General concerning evidence-based guidelines for the appropriateness of evidence collection depending on the sexual development of the sexual assault survivor, the type of sexual assault, and the timing of the sexual assault. Evidence collection is encouraged for prepubescent sexual assault survivors who present to a hospital or approved pediatric health care facility with a complaint of sexual assault within 96 hours after the sexual assault.

Definitions

“Hospital” means a hospital licensed under the Hospital Licensing Act or operated under the University of Illinois Hospital Act, any outpatient center included in the hospital's sexual assault treatment plan where hospital employees provide medical forensic services, and an out-of-state hospital that has consented to the jurisdiction of the Department [of Public Health] under Section 2.06 [of SASETA].

“Medical forensic services” are defined as health care delivered to patients within or under the care and supervision of personnel working in a designated emergency department of a hospital or an approved pediatric health care facility. "Medical forensic services" includes, but is not limited to, taking a medical history, performing photo documentation, performing a physical and anogenital examination, assessing the patient for evidence collection, collecting evidence in accordance with a statewide sexual assault evidence collection program administered by the Department of State Police using the Illinois State Police Sexual Assault Evidence Collection Kit, if appropriate, assessing the patient for drug-facilitated or alcohol-facilitated sexual assault, providing an evaluation of and care for sexually transmitted infection and human immunodeficiency virus (HIV), pregnancy risk evaluation and care, and discharge and follow-up healthcare planning. Medical forensic services are specifically set forth in Section 5(a-5) of SASETA. [410 ILCS 70/5(a-5)]

“Rape Crisis Counselor” or Rape Crisis Advocate” means a medical advocate trained and supervised in accordance with Illinois Coalition Against Sexual Assault Policies and Procedures and Illinois statute 735 ILCS 5/8-802.1 “Confidentiality of Statements Made to Rape Crisis Personnel” who is available, on-call, 24-hours per day, seven days per week, to provide in-person crisis intervention counseling, medical advocacy services and victim assistance to those presenting as or determined to be survivors of sexual assault and abuse at a hospital emergency room or

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State’s Attorney’s Offices pursuant to 410 ILCS 70/9.5(b)(5).

Approved Pediatric Health Care Facility. The terms may also apply to a legal advocate who provides services related to court proceedings, such as civil proceedings relating to domestic violence orders of protection or civil no contact orders and criminal cases.

“Sexual assault” means: (1) an act of sexual conduct; as used in this paragraph, "sexual conduct" has the meaning provided under Section 11-0.1 of the Criminal Code of 2012; or (2) any act of sexual penetration; as used in this paragraph, "sexual penetration" has the meaning provided under Section 11-0.1 of the Criminal Code of 2012 and includes, without limitation, acts prohibited under Sections 11-1.20 through 11-1.60 of the Criminal Code of 2012.

“Sexual assault survivor” means a person who presents for medical forensic hospital emergency services in relation to injuries or trauma resulting from a sexual assault.

“Pediatric sexual assault survivor” means a person under the age of 13 who presents for medical forensic services in relation to injuries or trauma resulting from a sexual assault.

“Prepubescent sexual assault survivor” means a female who is under the age of 18 years and has not had a first menstrual cycle or a male who is under the age of 18 years and has not started to develop secondary sex characteristics who presents for medical forensic services in relation to injuries or trauma resulting from a sexual assault.

“Transfer services” means the appropriate medical screening examination and necessary stabilizing treatment prior to the transfer of a sexual assault survivor to a hospital or an approved pediatric health care facility that provides medical forensic services to sexual assault survivors pursuant to a sexual assault treatment plan or areawide sexual assault treatment plan.

[410 ILCS 70/1a]

Unless otherwise noted, the provisions discussed below go into effect on January 1, 2019. [410 ILCS 70/99]

Places Where Medical Forensic Services and Examinations May Be Performed

Acute Medical forensic examinations may only be performed in four places:

1. Treatment Hospital. A licensed hospital that has a treatment plan approved by the Illinois Department of Public Health (IDPH) to provide medical forensic services to sexual assault survivors of all ages 24 hours a day 7 days a week. [410 ILCS 70/2(a)]
2. Treatment Hospital with Approved Pediatric Transfer. A licensed hospital that has a treatment plan approved by IDPH to provide medical forensic services to sexual assault survivors 13 years or older and to transfer pediatric patients to a Treatment Hospital or an Approved Pediatric Health Care Facility 24 hours a day, 7 days a week. [410 ILCS 70/2(a)]

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State’s Attorney’s Offices pursuant to 410 ILCS 70/9.5(b)(5).

3. Approved Pediatric Health Care Facility. A health care facility, other than a hospital, with an Areawide Treatment Plan approved by IDPH to provide medical forensic services to pediatric sexual assault survivors during hours of operation. [410 ILCS 70/2(b)]
4. Out-of-State Hospital. An out-of-state hospital, designated as a trauma center by IDPH that consents to the jurisdiction of IDPH under SASETA and is part of an Areawide Treatment Plan, that has been approved by IDPH, with one or more licensed Illinois hospitals to provide medical forensic services to sexual assault survivors 24 hours a day, 7 days a week. [410 ILCS 70/2.06]

THESE ARE THE ONLY MEDICAL FACILITIES THAT ARE AUTHORIZED BY LAW TO PERFORM ACUTE MEDICAL FORENSIC SERVICES.

Non-acute medical forensic services may be performed at any health care facility.

Law enforcement officers and others should immediately refer sexual assault survivors with a complaint of sexual assault within the last 7 days or who have disclosed past sexual assault by a specific individual and were in the care of that individual within the last 7 days to a hospital for acute medical forensic services.

Approved Pediatric Health Care Facilities (APHCFs)

An APHCF may provide the following services:

- Acute medical forensic examinations for a pediatric sexual assault survivor (age 12 or younger) instead of at a Treatment Hospital if a Qualified Medical Provider can initiate medical forensic services within 90 minutes of the child's arrival to the APHCF.
- Non-acute (more than 7 days after the assault or abuse) medical examinations for a pediatric sexual assault survivor (age 12 or younger).
- Non-acute (more than 7 days after the assault or abuse) medical examinations for children age 13 and older (typically only until the age of 18 unless there are extenuating circumstances).
- Follow-up healthcare services related to a sexual assault, including laboratory services and pharmacy services, rendered within 90 days of the initial visit for medical forensic services. [410 ILCS 70/1a]

An APHCF may not provide acute medical forensic services to children age 13 or older.

A pediatric health care facility must have a sexual assault treatment plan approved by the Illinois Department of Public Health before providing acute medical forensic services to pediatric sexual assault survivors.

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

In order for a sexual assault treatment plan to be approved, the APHCF must participate in an Areawide Treatment Plan with a Treatment Hospital. Additionally, if an APHCF does not provide certain medical or surgical services that are provided by hospitals, the Areawide Treatment Plan must include a procedure for ensuring a sexual assault survivor in need of such medical or surgical services receives the services at the Treatment Hospital.

[410 ILCS 70/2(b) and 5.3]

Qualified Medical Provider Requirement

A Qualified Medical Provider (QMP) must provide medical forensic services at an Approved Pediatric Health Care Facility. [410 ILCS 70/2(b)]

A QMP must provide the medical forensic services at Treatment Hospitals and Treatment Hospitals with Approved Pediatric Transfer (APT). [410 ILCS 70/5(a)]

A Qualified Medical Provider (QMP) is a board-certified or board-eligible child abuse pediatrician, sexual assault forensic examiner (SAFE) or sexual assault nurse examiner (SANE), who has access to photo documentation tools and participates in peer review.

- A board-certified or board-eligible child abuse pediatrician is a physician certified by the American Board of Pediatrics in child abuse pediatrics or a physician who has completed the requirements set forth by the American Board of Pediatrics to take the examination for certification in child abuse pediatrics.
- A SAFE is a physician or physician assistant who has completed training that meets or is substantially similar to the Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses for either Pediatric/Adolescent survivors, Adult/Adolescent survivors or Pediatric/Adolescent/Adult survivors.
 - The Illinois Department of Public Health, in consultation with the Office of the Attorney General, must adopt administrative rules by January 1, 2020 establishing a process for physicians and physician assistants to provide documentation of training and clinical experience that meets or is substantially similar to the Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses in order to qualify as a sexual assault forensic examiner. [410 ILCS 70/2.05(c)]
- A SANE is an advanced practice registered nurse or registered professional nurse who has completed a sexual assault nurse examiner training program that meets the Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses for either Pediatric/Adolescent survivors, Adult/Adolescent survivors or Pediatric/Adolescent/Adult survivors.

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

- A SANE in Illinois who has completed the didactic and clinical components for Adult/Adolescent or Pediatric/Adolescent sexual assault survivors may conduct a medical forensic examination using the Illinois State Police Sexual Assault Evidence Collection Kit without the presence or participation of a physician for that specific population. [410 ILCS 70/5(a-5)(1-5)(B)]
- A SANE is not required to be nationally certified by the International Association of Forensic Nurses Commission for Forensic Nursing Certification, however, the Implementation Task Force encourages SANEs to become nationally certified to ensure the highest level of care for Illinois sexual assault survivors.
- For additional information regarding the Sexual Assault Nurse Examiner Education Guidelines and SANE Certification, please see the “Sexual Assault Nurse Examiner Program” section below.

[410 ILCS 70/1a]

Sexual Assault Nurse Examiner Program

Public Act 100-0775 formally establishes the Sexual Assault Nurse Examiner (SANE) Program in the Office of the Attorney General (OAG). The SANE Program is tasked with the following:

- Create, in consultation with Qualified Medical Providers, uniform materials that all Treatment Hospitals, Treatment Hospitals with Approved Pediatric Transfer and Approved Pediatric Health Care Facilities are required to give patients and non-offending parents or legal guardians, if applicable, regarding the medical forensic exam procedure, laws regarding consenting to medical forensic services, and the benefits and risks of evidence collection, including recommended time frames for evidence collection pursuant to evidence-based research. These materials will be posted on the OAG’s website.
- By March 1, 2019, develop and make available to hospitals 2 hours of online training for emergency department clinical staff to meet the training requirement in Section 2(a) of SASETA; CEUs and CMEs shall be provided for the training.
- Provide didactic and clinical SANE training opportunities that meet the Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses.
- Maintain a list of sexual assault nurse examiners who have completed didactic and clinical training requirements consistent with the Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses.

[410 ILCS 70/10]

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State’s Attorney’s Offices pursuant to 410 ILCS 70/9.5(b)(5).

Sexual Assault Nurse Examiner Education Guidelines

The Sexual Assault Nurse Examiner Education Guidelines established by the International Association of Forensic Nurses (IAFN) are to help the sexual assault nurse examiner meet the medical forensic needs of those who have been affected by sexual violence, including individual patients, families, communities and systems.

- Registered nurses who perform medical forensic evaluations must receive additional and specific didactic and clinical preparation to care for adult, adolescent and pediatric patients. These guidelines specify the minimum level of instruction required to ensure competent practice.
- Clinicians should attend a didactic training that yields a minimum of 40 continuing nursing education contact hours from an accredited provider of nursing education. Separate didactic coursework exists for the Adult/Adolescent patient and the Pediatric/Adolescent patient. Clinicians may also attend a combination Adult/Adolescent and Pediatric/Adolescent training that yields a minimum of 64 continuing nursing education contact hours from an accredited provider of nursing education.
- Upon completion of the didactic coursework, clinicians must also complete clinical components, including simulated clinical experiences, which are in addition to the didactic coursework and not calculated as part of the 40-hour didactic course. The Office of the Attorney General has a clinical training log specific to Adult/Adolescent and Pediatric/Adolescent training requirements. Information about the didactic training opportunities and the clinical logs may be found on the OAG's website: <https://illinoisattorneygeneral.gov/Safer-Communities/Responding-to-Sexual-Assault/SANE/>.

SANE Certification

The SANE Program in the Office of the Attorney General does not provide SANE Certification. The Commission for Forensic Nursing Certification (CFNC), as part of the IAFN, currently offers two professional credentials: the Sexual Assault Nurse Examiner-Adult/Adolescent (SANE-A®) and the Sexual Assault Nurse Examiner-Pediatric (SANE-P®). Both credentials are recognized by the American Nurses Credentialing Center's (ANCC) Magnet Program®. National certification is not required to practice as a SANE in Illinois. It is recommended that a clinician practice as a SANE for 3 years or 300 clinical hours before applying to sit for the National Certification Exam. Information on national certification may be found on the IAFN website at <https://www.forensicnurses.org/page/CertOpportunities>

The Implementation Task Force encourages SANEs to become nationally certified to ensure the highest level of care for Illinois sexual assault survivors.

Photo Documentation

Beginning July 1, 2019, photo documentation of the sexual assault survivor's injuries, anatomy involved in the assault, or other visible evidence on the sexual assault survivor's body to supplement the medical forensic history and written documentation of physical findings and evidence must be offered to the survivors as part of the medical forensic services. Photo documentation does not replace written documentation of the injury. [410 ILCS 70/5(a-5)(5)] All photos taken are part of the sexual assault survivor's medical record.

“Photo documentation” means digital photographs or colposcope videos stored and backed-up securely in the original file format. [410 ILCS 70/1a]

Treatment Hospitals, Treatment Hospitals with Approved Pediatric Transfer, Out-of-State Hospitals and Approved Pediatric Health Care Facility must develop and implement a protocol limiting access to photo documentation obtained during the provision of medical forensic services. The protocol must be included in treatment plans. [410 ILCS 70/5.1]

The Implementation Task Force is charged with identifying photography and storage options for hospitals to comply with the photo documentation requirements in Sections 5 and 5.1 of SASETA. Pursuant to this statutory mandate, the Implementation Task Force has developed a sample Forensic Photography Policy, including optional consent form, equipment options and storage options, for Treatment Hospitals, Treatment Hospitals with Approved Pediatric Transfer, and Approved Pediatric Health Care Facilities.

The sample policy may be found on the Attorney General Office's website at <https://illinoisattorneygeneral.gov/Safer-Communities/Responding-to-Sexual-Assault/SANE/>.

The Task Force recommends State's Attorneys work with hospitals and approved pediatric health care facilities that will provide medical forensic services to sexual assault survivors for offenses that occurred with the State's Attorney's county on the protocols related to photo documentation to ensure that the sexual assault survivor's privacy is protected to the greatest extent possible and that the prosecutor has sufficient access to hold the offender accountable.

Medical Forensic Services

Section 5 of SASETA sets forth the following minimum services which must be offered to sexual assault survivors seeking medical forensic services by Treatment Hospitals, Treatment Hospitals with Approved Pediatric Transfer, Approved Pediatric Health Care Facilities, and Out-of-State Hospitals participating in an Area Wide Treatment Plan. P.A. 100-0775 amends Section 5 to revise some of the current provisions and adds additional provisions. P.A. 100-1087 also adds two new requirements. (*New Requirement)

- Provide medical forensic services without delay, in a private, age- or developmentally-appropriate space.*

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

- Offer to complete the Illinois Sexual Assault Evidence Collection Kit for any sexual assault survivor who presents within the last 7 days of the assault or who has disclosed past sexual assault by a specific individual and was in the care of that individual within the last 7 days.
- Provide appropriate oral and written information concerning the possibility of infection, sexually transmitted infection, including an evaluation of the sexual assault survivor's risk of contracting human immunodeficiency virus (HIV) from sexual assault and pregnancy resulting from sexual assault.
- Provide appropriate oral and written information concerning accepted medical procedures, laboratory tests, medication, and possible contraindications of such medication available for the prevention or treatment of infection or disease resulting from sexual assault.
- Provide an amount of medication, including HIV prophylaxis, for treatment at the hospital or Approved Pediatric Health Care Facility (APHCF) and after discharge as is deemed appropriate by the attending physician, an advanced practice registered nurse, or a physician assistant in accordance with the Centers for Disease Control and Prevention guidelines and consistent with the hospital's or APHCF's current approved protocol for sexual assault survivors.
- Beginning July 1, 2019, offer photo documentation of the sexual assault survivor's injuries, anatomy involved in the assault, or other visible evidence on the sexual assault survivor's body to supplement the medical forensic history and written documentation of physical findings and evidence.*
- Provide written and oral instructions indicating the need for follow-up examinations and laboratory tests after the sexual assault to determine the presence or absence of sexually transmitted infection.
- Make a referral for appropriate counseling.
- Provide written information regarding services provided by a children's advocacy center and rape crisis center, if applicable. Information for dissemination to be provided to hospitals by the appropriate centers.*
- Offer medical advocacy services provided by a rape crisis counselor whose communications are protected under Section 8-802.1 of the Code of Civil Procedure, if there is a memorandum of understanding between the hospital and a rape crisis center.*
- With the consent of the sexual assault survivor, a rape crisis counselor shall remain in the exam room during the medical forensic examination. The sexual assault survivor also has the right to have a support person present during the examination.* (P.A. 100-1087)

- Provide access to a shower at no cost, after a medical evidentiary or physical examination, unless showering facilities are unavailable.* (P.A. 100-1087)

[410 ILCS 70/5(a) and 5(a-5)]

Consent for Medical Forensic Services and Testing of Sexual Assault Evidence

Medical Forensic Exam and Evidence Collection

- Any person who is a sexual assault survivor who seeks medical forensic services or follow-up healthcare shall be provided services without the consent of any parent, guardian, custodian, surrogate, or agent. [410 ILCS 70/5(b)] If the sexual assault survivor consents to the exam, the healthcare professional will still ask the survivor if it is okay to proceed with each step of the exam. The patient can stop the exam at any time or decline any portion of the exam.
- If a sexual assault survivor is unable to consent to medical forensic services, the services may be provided under the Consent by Minors to Medical Procedures Act [410 ILCS 210/1 *et seq.*], the Health Care Surrogate Act [755 ILCS 40/5 *et seq.*], or other applicable State and federal laws. [410 ILCS 70/5(b)]
- If a parent or guardian consents to a medical forensic exam for a child or other person, the healthcare professional will still seek the sexual assault survivor's assent to perform each part of the exam. Assent is the expressed willingness of the survivor to participate in an activity. An exam will not be forced upon a sexual assault survivor and a survivor should not be physically restrained or medicated in order for the exam to be performed.

Photo Documentation / Photographic Evidence

- A sexual assault survivor age 13 years old or older has the option to consent to or decline the collection of photographic evidence as part of the medical forensic examination. This is reflected on the Illinois State Police Patient Consent: Collect and Test Evidence or Collect and Hold Evidence form, which is part of the Illinois Sexual Assault Evidence Collection Kit. If the sexual assault survivor is under 13 years old, consent may be obtained from a parent or guardian. [77 Ill. Adm. Code 545.60(c)(2)]
- A sexual assault survivor may verbally withdraw consent for photographs and images to be taken at any time. The withdrawal of consent may apply to the rest of the examination or to a portion of the examination. If consent is withdrawn, the health care professional should document in the patient's medical record that consent was withdrawn and specify the scope of the consent withdrawal (e.g. the remainder of the examination, photos of the genitalia, or photos of a specific injury).
- If a sexual assault survivor is unable to consent to photographic evidence, the collection of photographic evidence may be provided under the Consent by Minors to Medical

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

Procedures Act [410 ILCS 210/1 *et seq.*], the Health Care Surrogate Act [755 ILCS 40/5 *et. seq.*], or other applicable State and federal laws. [410 ILCS 70/5(b)]

Reporting to Law Enforcement / Testing of Sexual Assault Evidence

- A sexual assault survivor who consents to medical forensic services is not required to report the sexual assault or sexual abuse to law enforcement. However, a sexual assault survivor may choose to speak with a law enforcement officer or to allow Qualified Medical Providers and other health care providers to provide information to law enforcement regarding the sexual assault. [725 ILCS 203/20(b), (e)]
- Once a medical forensic exam is completed, a survivor has two options with respect to the testing of the evidence collecting during the exam. The first option is to release the evidence to a law enforcement agency for forensic testing by a crime lab. The second option is the release the evidence to law enforcement for storage. A survivor shall have 10 years from the completion of the exam or 10 years from the age of 18 years, whichever is longer, to sign a written consent to release the sexual assault evidence to law enforcement for testing. [725 ILCS 203/30]
- A sexual assault survivor 13 years of age or older may sign the written consent to release the evidence for testing. [410 ILCS 70/6.5(a)(1)]
- If the sexual assault survivor is a minor who is under 13 years of age, the written consent to release the sexual assault evidence for testing may be signed by the parent, guardian, investigating law enforcement officer, or Department of Children and Family Services. [410 ILCS 70/6.5(a)(2)]
- If the survivor is an adult who has a guardian of the person, a health care surrogate, or an agent acting under a health care power of attorney, the consent of the guardian, surrogate, or agent is not required to release evidence for testing and information concerning the sexual assault or sexual abuse. If the adult is unable to provide consent for the release of evidence for testing and information and a guardian, surrogate, or agent under a health care power of attorney is unavailable or unwilling to release the information, then an investigating law enforcement officer may authorize the release for testing. [410 ILCS 70/6.5(a)(3)]
- If a sexual assault survivor is unable to sign the consent to report to law enforcement or to release the evidence for testing, consent to report to law enforcement or to release the evidence for testing may be obtained from law enforcement, the Department of Children and Family Services, under the Consent by Minors to Medical Procedures Act [410 ILCS 210/1 *et seq.*], the Health Care Surrogate Act [755 ILCS 40/5 *et. seq.*], or other applicable State and federal laws. [410 ILCS 70/5(b)]

Sexual Assault Treatment and Transfer Plans for the Illinois Department of Public Health

Each Transfer Hospital, Treatment Hospital, Treatment Hospital with Approved Pediatric Transfer, and Approved Pediatric Health Care Facility must submit a new or updated plan to the Illinois Department of Public Health for approval after January 2, 2019. The new requirements for these plans are:

Hospital Treatment Plans - SASETA requires the following information to be included in a Treatment Hospital or Treatment Hospital with Approved Pediatric Transfer's sexual assault treatment plan. This information is in addition to that required under Section 5(a).

- Protocols for training of emergency department clinical staff as required by Section 2(a) of SASETA. [410 ILCS 70/2(a)]
- Procedures for complying with mandatory reporting requirements pursuant to the Abused and Neglected Child Reporting Act, the Abused and Neglected Long Term Care Facility Residents Reporting Act, the Adult Protective Services Act, and the Criminal Identification Act. [410 ILCS 70/2(d)]
- A facility protocol limiting access to photo documentation obtained during the provision of medical forensic services. [410 ILCS 70/5.1]
- A protocol for issuing sexual assault services vouchers which must, at a minimum, include the identification of employee positions responsible for issuing sexual assault services vouchers and the identification of employee positions with access to the Medical Electronic Data Interchange or successor system. [410 ILCS 70/5.2(b)]

Hospital Transfer Plans

- Transfer Hospitals may only transfer sexual assault survivors age 13 and older to Treatment Hospitals. Pediatric sexual assault survivors may be transferred to a Treatment Hospital or an Approved Pediatric Health Care Facility.
- IDPH may not approve a transfer plan unless a Treatment Hospital has agreed, as a part of an Areawide Treatment Plan, to accept sexual assault survivors from the proposed transfer hospital and a transfer to the Treatment Hospital would not unduly burden the sexual assault survivor.
- In counties with a population of less than 1,000,000, IDPH may not approve a sexual assault transfer plan for a hospital located within a 20-mile radius of a 4-year public university, not including community colleges, unless there is a treatment hospital with a sexual assault treatment plan approved by IDPH within a 20-mile radius of the 4-year public university.

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

[410 ILCS 70/2(a)]

Approved Pediatric Health Care Facility (APHCF) Treatment Plans - SASETA requires the following information to be included for an APHCF sexual assault treatment plan. This information is in addition to that required under Section 5(a) of SASETA.

- Medical forensic services for pediatric sexual assault survivors must be provided by a Qualified Medical Provider.
- The pediatric health care facility must participate in or submit an Areawide Treatment Plan that includes a Treatment Hospital. The Areawide Treatment Plan may also include a Treatment Hospital with Approved Pediatric Transfer.
- If the health care facility does not provide certain medical or surgical services that are provided by hospitals, the Areawide Treatment Plan must include a procedure for ensuring a sexual assault survivor in need of those services receive the services at the Treatment Hospital.
- If the facility is not open 24 hours a day, 7 days a week, the facility include signage to be posted at each public entrance to the facility directing those seeking services to call 911 for service or to go to the closest hospital emergency department and specify the location. The signage must be lighted and be at least 14' by 14' in size with white bold capital lettering on a black background and posted clearly and conspicuously on or adjacent to each entrance.

[410 ILCS 70/2(b)]

Transferring Pediatric Sexual Assault Survivors for Medical Forensic Services

1. See *FLOWCHART A* for a visual representation of the information below.

A Treatment Hospital may transfer a pediatric sexual assault survivor to an Approved Pediatric Health Care Facility (APHCF) for acute medical forensic services only if:

- the Treatment Hospital participates in an Areawide Treatment Plan with an APHCF;
- the Treatment Hospital contacts the APHCF and confirms a Qualified Medical Provider (QMP) is available to initiate medical forensic services within 90 minutes of the survivor's arrival to the APHCF; and
- the survivor/non-offending caregiver chooses to be transferred in order to receive medical forensic services at the APHCF.

If (1) the Treatment Hospital does not participate in an Areawide Treatment Plan with an APHCF, (2) a QMP is not available within 90 minutes of the survivor's arrival at the APHCF, (3) the

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

survivor/non-offending caregiver chooses not to be transferred to the APHCF or (4) the survivor/non-offending caregiver were already transferred to the Treatment Hospital from another facility, the Treatment Hospital must provide the medical forensic services.

The patient may be transported by ambulance, law enforcement or personal vehicle.

[410 ILCS 70/5.3(c)]

2. See *FLOWCHART B* for a visual representation of the information below.

A Treatment Hospital with Approved Pediatric Transfer (APT) or Transfer Hospital may transfer a pediatric sexual assault survivor to an APHCF for acute medical forensic services only if:

- the Treatment Hospital with APT or Transfer Hospital participates in an Areawide Treatment Plan with an APHCF;
- the Treatment Hospital with APT or Transfer Hospital contacts the APHCF and confirms a QMP is available to initiate medical forensic services within 90 minutes of the survivor's arrival to the facility; and
- the survivor/non-offending caregiver chooses to be transferred in order to receive medical forensic services at the APHCF.

If (1) the Treatment Hospital with APT or Transfer Hospital does not participate in an Areawide Treatment Plan with an APHCF, (2) a QMP is not available within 90 minutes of the survivor's arrival at the APHCF, or (3) the survivor/non-offending caregiver chooses not to be transferred to the APHCF, the Treatment Hospital with APT or Transfer Hospital must transfer the pediatric sexual assault survivor to the Treatment Hospital designated in the facility's approved sexual assault plan in order to receive medical forensic services.

The patient may be transported by ambulance, law enforcement or personal vehicle.

[410 ILCS 70/5.3(b)]

Transferring Sexual Assault Survivors to Out-of-State Hospitals for Medical Forensic Services

A Transfer Hospital, Treatment Hospital with Approved Pediatric Transfer, or an Approved Pediatric Health Care Facility may transfer sexual assault survivors to Out-of-State Hospitals which have been designated as trauma centers by the Illinois Department of Public Health (IDPH) if the Out-of-State Hospital participates in an Areawide Treatment Plan and certifies that it will:

- Consent to IDPH's jurisdiction for the purposes of enforcing SASETA;
- Comply with all provisions of SASETA;

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

- Use an Illinois State Police Sexual Assault Evidence Collection Kit when collecting evidence from Illinois survivors;
- Ensure its staff cooperates with Illinois law enforcement agencies and are responsive to subpoenas issued by Illinois courts; and
- Provide appropriate transportation upon the completion of medical forensic services, back to the hospital where the sexual assault survivor initially presented seeking medical forensic services, unless the sexual assault survivor chooses to arrange his or her own transportation.

To view the Out-of-State Hospitals which have been designated as trauma centers by IDPH visit <https://dph.illinois.gov/topics-services/health-care-regulation/hospitals/saseta.html>.

Transfers to out-of-state hospitals are not allowed on and after January 1, 2024. [410 ILCS 70/5.4]

Patient Medical Records Pertaining to Medical Forensic Services

Creation and Storage

- Records shall be maintained by the Treatment Hospital, Treatment Hospital with Approved Pediatric Transfer (APT), Out-of-State Hospital, or Approved Pediatric Health Care Facility (APHCF) as part of the patient's medical record and must include results of examinations and tests, the Illinois State Police Medical Forensic Documentation Forms, the Illinois State Police Patient Discharge Materials, and the Illinois State Police Patient Consent: Collect and Test Evidence or Collect and Hold Evidence Form and, if indicated, the Illinois State Police Consent to Toxicology Form.
- Photo documentation taken during a medical forensic examination must be maintained by the Treatment Hospital, Treatment Hospital with APT, or APHCF as part of the patient's medical record. Photo documentation must be stored and backed up securely in its original file format in accordance with facility protocol.

Retention

- Records and photo documentation of sexual assault survivors 18 years of age or older must be retained by the Treatment Hospital, Treatment Hospital with APT, or APHCF for a period of 20 years after the date the record was created.
- Records and photo documentation of sexual assault survivors under the age of 18 must be retained by the Treatment Hospital, Treatment Hospital with APT, or APHCF for a period of 60 years after the sexual assault survivor reaches the age of 18 (i.e. until the date the survivor reaches or would have reached the age of 78).

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

Dissemination

- Records of medical forensic services may only be disseminated in accordance with 6.5 of SASETA and other State and federal law. A Treatment Hospital, Treatment Hospital with APT, or APHCF must not release information about the sexual assault to law enforcement unless the survivor consents to the release or law enforcement has a court order.
- Photo documentation of the sexual assault survivor's injuries, anatomy involved in the assault, or other visible evidence on the sexual assault survivor's body may be used for peer review, expert second opinion, or in a criminal proceeding against a person accused of sexual assault, a proceeding under the Juvenile Court Act of 1987, or in an investigation under the Abused and Neglected Child Reporting Act.

The Implementation Task Force recommends State's Attorneys work with hospitals and approved pediatric health care facilities that will provide medical forensic services to sexual assault survivors for offenses that occurred with the State's Attorney's county on the protocols related to photo documentation to ensure that the sexual assault survivor's privacy is protected to the greatest extent possible and that the prosecutor has sufficient access to hold the offender accountable.

Responses to Requests or Subpoenas by Defense Counsel for Release of Photo Documentation to Defense Expert

Defense counsel may hire or consult a medical expert to review the sexual assault survivor's record to provide an opinion. These requests often include a request for access to, or copies of, the photo images and/or colposcope videotape. The Implementation Task Force recommends State's Attorneys request restrictions be placed on the expert's access to protect the sexual assault survivor's constitutional and statutory right to right to be treated with fairness and respect for their dignity and privacy and to be free from harassment, intimidation, and abuse throughout the criminal justice process. The victim's rights can be protected by filing a motion or a stipulation regarding reasonable restrictions. Reasonable restrictions include:

- Requiring the expert witness' name, address and qualifications be provided to the court and to the State's Attorney;
- Granting the expert witness access to view the photo documentation on a specific date and time at a location chosen by the State's Attorney;
- Prohibiting the expert witness from altering or copying the photo documentation;
- Having the court order that the defendant is not allowed to view or have any access to the photo documentation.
- Prohibiting the expert witness from using the photo documentation for any purpose other than to form an opinion in the case.

Two examples of stipulations may be found at pages 22 and 24.

[410 ILCS 70/5(a-5), 5.1. and 6.5]

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

Relevant Provisions of Public Act 100-1087

Public Act 100-1087, also effective January 1, 2019, contains changes to the laws which directly relate to survivors of sexual assault.

Sexual Assault Survivor's Use of Alcohol, Cannabis and Controlled Substances

At the time of first contact with law enforcement, a sexual assault survivor shall be advised that "...sexual assault forensic evidence collected will not be used to prosecute the victim for any offense related to the use of alcohol, cannabis, or a controlled substance." [725 ILCS 203/25(c-5)]

A person reporting that he or she has been sexually assaulted or a person reporting a sexual assault of another person or requesting emergency medical assistance or medical forensic services for another person who had been sexually assaulted may not be charged based solely on the commission of an offense that

- 1) involves alcohol and violates subsection (d) or (e) of Section 20 of the Liquor Control Act of 1934; or
- 2) is a Class 4 felony possession of a controlled, counterfeit, or look-alike substance or a controlled substance analog, provided the amount of the substance falls under specified amounts in statute.

[See 235 ILCS 5/6-20(I-5) and 720 ILCS 570/415 for additional requirements/limitations.]

All higher education institutions (colleges and universities) must revise their comprehensive policies concerning sexual violence, domestic violence, dating violence, and stalking consistent with governing federal and state law to include an amnesty provision for possession or consumption of alcohol or controlled substances.

[Preventing Sexual Violence in Higher Education Act, 110 ILCS 155/10(10)]

Rights Before, During and After a Medical Forensic Examination

A sexual assault survivor has the right to retain an attorney who may be present during all stages of any interview, investigation, or other interaction with representatives of the criminal justice system. The treatment of the sexual assault survivor should not be affected or altered in any way as a result of the survivor's decision to exercise this right. [725 ILCS 120/4(d)]

A sexual assault survivor has a right to have an advocate present during any medical evidentiary or physical examination, unless no advocate can be summoned in a reasonably timely manner. The survivor also has the right to have an additional person present for support during any medical evidentiary or physical examination. A sexual assault survivor retains these rights even if the survivor has waived these rights in a previous examination. [725 ILCS 120/4.6]

This document has been created by the Sexual Assault Medical Forensic Services Implementation Task Force for State's Attorney's Offices pursuant to 410 ILCS 70/9.5(b)(5).

A hospital or Approved Pediatric Health Care Facility providing medical forensic services to a sexual assault survivor must provide the survivor access to a shower at no cost, after a medical evidentiary or physical examination unless showering facilities are unavailable. [410 ILCS 70/5(a)(3.5)]

A sexual assault survivor has a right, upon request, to a free copy of the police report as soon as practicable, but in no event, more than 5 days after the request. [725 ILCS 120/4(b-5)]

Consent to Test Sexual Assault Evidence

A sexual assault survivor has 10 years from the completion of an Illinois State Police Sexual Assault Evidence Collection Kit, or 10 years from the date a minor sexual assault survivor turns 18 years of age, whichever is longer, to sign a written consent to release the sexual assault evidence to law enforcement for testing. [725 ILCS 203/30(d)]

Copy of Police Report

A sexual assault survivor may request a copy of the police report from the law enforcement agency having jurisdiction of the offense. The law enforcement agency must provide a free copy of the police report concerning the victim's incident, as soon as practicable, but in no event later than 5 business days from the request. [725 ILCS 120/4.5(b-5)]

Statute of Limitations

Existing law allows a prosecution for criminal sexual assault, aggravated criminal sexual assault, or aggravated criminal sexual abuse to be commenced within 10 years of the commission of the offense if the sexual assault survivor reported the offense to law enforcement authorities within 3 years after the commission of the offense.

Public Act 100-1087 provides that the consent of a sexual assault survivor to the collection of evidence using an Illinois State Police Sexual Assault Evidence Collection Kit under the SASETA shall constitute reporting for purposes of this extension to the statute of limitations. [720 ILCS 5/3-6(i)]

Relevant Provision of P.A. 100-0080

P.A. 100-0800, effective August 11, 2017, amended the statute of limitations for various sexual offenses involving minor victims. Section 5/3-6(j) of the Criminal Code of 2012 now provide that a prosecution for criminal sexual assault, aggravated criminal sexual assault, predatory criminal sexual assault of a child, aggravated criminal sexual abuse, or felony criminal sexual abuse may be commenced at any time when the victim is under 18 years of age at the time of the offense. [720 ILCS 5/3-6(j)]

transmitted as an e-mail attachment or otherwise introduced to the internet, other than through the mechanism utilized for access and viewing of colposcopic video and/or images as specified by the FACILITY.

- (9) That the Defendant hereby agrees that his or her counsel shall inform the FACILITY of the retention of a certified medical expert and include the following information – two forms of viable contact information for the medical expert. The certified medical expert will be provided with a username and password in two separate modes of communication, so that the expert may access the FACILITY colposcopic video and/or images on a secure server.
- (10) That notwithstanding any of the previous provisions herein, access to the colposcopic video and/or images shall be terminated 10 business days after initial login and access by the medical expert. An additional time period of 10 business days can be granted to the specified certified medical expert, if a request is made by the medical expert to the FACILITY.
- (11) That notwithstanding any of the previous provisions herein, no party may alter, reconfigure, change, or otherwise modify the condition of the images thereupon in any fashion. Counsel for the Defendant, the expert for the Defendant or their designees or agents may not copy, reproduce, save, print or upload the colposcopic images.
- (12) That the Defendant and his or her counsel agree that the FACILITY and/or the University of Illinois College of Medicine Peoria is not liable for any loss or misappropriation of the colposcopic images after the medical expert has accessed the colposcopic images.

I am making this stipulation freely and voluntarily. No one has threatened me with harm of any kind to me or to any other person to cause me to make this stipulation.

My lawyer has explained to me, and we have fully discussed the above paragraphs. I understand them all. I have no further questions to ask the Judge.

DATED this _____ day of _____, 20__.

Sample Stipulation Regarding Release of Facility Colposcope Video and/or Images to Defense Expert via Encrypted Electronic Media

In the County Court

STATE OF ILLINOIS,)
) No.
Plaintiff,)
) STIPULATION REGARDING RELEASE OF
v.) FACILITY COLPOSCOPE VIDEO TO
) DEFENSE EXPERT
)
Age: ; DOB:)
)
Defendant.)

COMES NOW the Plaintiff, STATE OF ILLINOIS, by and through its attorney, _____, Assistant States’ Attorney, and Defendant, _____, being both personally present and represented by counsel, _____, and based upon the agreed recommendation of the parties, the Court having heard the arguments of counsel and being fully advised in the premises, now, therefore, enters the following Stipulation—

- (1) That the FACILITY (“FACILITY”), shall copy colposcope video onto an encrypted electronic media from the FACILITY examination of _____ (dob _____) conducted in this case; Examination date—____. The means to access the encrypted video shall be provided to the named expert witness as set forth in section 3.
- (2) That the Defendant hereby stipulates to the chain of custody of all items released to his or her counsel, expert witness or their designee(s).
- (3) That in no event will any FACILITY video be released from the custody of the FACILITY clinic to the Defendant’s counsel, expert witness or their designee unless a properly licensed, certified expert has been retained and endorsed by the Defendant and his or her counsel and the sole purpose of the release of the video is for the expert to view and analyze the video in anticipation of litigation in this criminal action
- (4) That prior to the removal of any video from the possession of the FACILITY clinic, the party seeking the release shall provide to the below-named State’s Attorney the name and address of the expert witness that has been retained and endorsed as a potential witness in the above-mentioned case.
- (5) That the Defendant hereby declares that the following expert has been retained in anticipation and preparation of trial in the above-mentioned criminal action and is a properly licensed, certified expert—(expert’s name).
- (6) That the Defendant hereby agrees that the above mentioned expert, _____ or counsel for the Defendant, _____, will personally appear at the FACILITY and sign a FACILITY release

form for the removal of the encrypted electronic media from the premises. Any party taking custody of any item(s) pursuant to this stipulation shall be required to sign for the item(s).

- (7) That in no event shall the evidence be released, handled, turned over to, or otherwise provided to anyone other than (expert's name), and/or their designee. In no event may this evidence be used for purposes other than the defense of this criminal action.
- (8) That _____ shall not release or return the evidence to any other party or person, except those enumerated in paragraph 7, without an additional stipulation being entered by this Court and the parties to this action.
- (9) That in no event will the Defendant ever be permitted by anyone to handle or view the FACILITY encrypted media or any images thereupon.
- (10) That in no event will the encrypted media or the images thereupon be copied, uploaded to a computer's hard drive, transmitted as an e-mail attachment or otherwise introduced to the internet.
- (11) That in no event will any FACILITY media sought to be released, be transported from the FACILITY to the intended destination by registered mail, delivery service or other similar manner of transport.
- (12) That all parties involved in the transport, handling, and/or analysis of the encrypted media evidence shall document in a written report--(a) the date and time of the transport, handling, and/or analysis of the encrypted media; (b) the condition of the encrypted media at the time of receipt of the encrypted media and transfer of the encrypted media to any other party; (c) any changes, alterations, and/or modification to the encrypted media and/or the container in which the encrypted media is located; (d) the nature, scope, duration, and extent of any analysis(es) performed using the encrypted media; and (e) the findings of the expert(s) who performed the analysis.
- (13) That notwithstanding any of the previous provisions herein, the encrypted media shall be returned to the FACILITY clinic 10 business days after receipt by the medical expert. The encrypted media shall be returned to the FACILITY clinic by (Some places allow return by: registered, certified and insured mail or by) personal delivery by _____, and/or (EXPERT'S NAME), and/or their designee. No other mode of transportation is permitted. In no event will the encrypted media be given to the Prosecutor's Office for return to the FACILITY.(14) That notwithstanding any of the previous provisions herein, no party may alter, reconfigure, change, or otherwise modify the condition or state of the encrypted media or of the images thereupon in any fashion. Counsel for the Defendant, the expert for the Defendant or their designees or agents may not copy, reproduce or upload the encrypted media.
- (14) That the Defendant and his or her counsel agree that the FACILITY and/or the (parent institution) is not liable for any loss or misappropriation of the encrypted media or its images after the encrypted media is released from the FACILITY Clinic premises.

I am making this stipulation freely and voluntarily. No one has threatened me with harm of any kind to me or to any other person to cause me to make this stipulation.

My lawyer has explained to me, and we have fully encrypted discussed the above paragraphs. I understand them all. I have no further questions to ask the Judge.
